Coolmine Community School
SSE

SSE stands for School Self-Evaluation.
It is a process where our school looks at what we are doing well, what could be improved, and how we can make learning better for every student.

In simple terms:

We look – What is working well in our school?

We listen – We ask students, parents and staff for their views.

We use evidence – We look at information and feedback to understand what needs to improve.

We set goals – We choose areas where we can make a real difference.

We take action – We introduce changes and see if they are helping.

We review – We check what has improved and decide what to do next.
